Dr. Homer E. Newell, Director
Office of Space Sciences
National Aeronautics and
Space Administration
1520 H Street, N.W.
Washington 25, D.C.

Dear Homer:

This is in answer to your letter of May 4, received while I was traveling in Japan.

We fully appreciate these considerations and have oriented most of our recent efforts within the framework of your remarks, under the Multivator project.

Yours sincerely,

Joshua Lederberg
Professor of Genetics
